

## **Bridge Commission to recognize Earth Hour**

Mar 25, 2009

**Dartmouth, NS** – In recognition of Earth Hour the Halifax-Dartmouth Bridge Commission (HDBC) will once again turn off the highlighting on the Angus L. Macdonald Bridge from 8:30-9:30pm Saturday, March 28.

“HDBC is happy to participate in Earth Hour,” explains Ken Munro, HDBC treasurer and acting general manager. “It’s one action we can take to support this symbolic annual event.”

HDBC takes sustainability very seriously and is making strides in reducing its impact on the environment and the effects of climate change. For example, HDBC recently completed its conversion to natural gas to provide heat and hot water in its buildings and garages at the Macdonald and MacKay Bridges.

HDBC is the forward thinking manager of key transportation infrastructure assets in the Halifax Regional Municipality. Its mission is to provide safe, efficient and reliable passage at an appropriate cost.

For more information about HDBC please go to [www.hdbc.ca](http://www.hdbc.ca). For more information about Earth Hour please go to [www.wwf.ca/earthhour](http://www.wwf.ca/earthhour).
